<b>Release of Products and Services</b>		Rev. No.: 04 October 31, 2022 Page: 1/1

Acceptance criteria for Products or Services are defined in appropriate subordinate documentation. Reviews, inspections and tests are conducted at appropriate stages to verify that the requirements have been met. This is done before Products or Services are released or services are delivered.

Each process utilizes different methods for measuring and releasing Products or Services. These methods are defined in the different processes established by BAI.

BAI has implemented planned arrangements, at appropriate stages, to verify that the product and service requirements have been met.

The release of products and services to the customer, do not proceed until the planned arrangements have been satisfactorily completed, unless otherwise approved by a relevant authority and, as applicable, by the customer.

BAI retains documented information on the release of products and services. The documented information includes:

- a. Evidence of conformity with the acceptance criteria;
- b. Traceability to the person(s) authorizing the release.
