

RADSS

Rabies Data Share System Quick Start Guide

1

STEP 1: REGISTRATION

Visit the **Phil-AHIS** website philahis.bai.gov.ph to create your account.

After successful registration, the website administrator will verify your account and give you role access in the system.

2

STEP 2: CREATE PROFILE

Create your profile first before using the system because some information are required including your department/agency and mobile number.

3

STEP 3: START A NEW CASE

OR

VIEW AN EXISTING CASE

Start a new case by clicking the **"START NEW CASE"** button.

Start encoding your data in the **"Form Wizard"** page.

View or edit an existing case by clicking the **"START REPORTED CASE"** button.

Update an existing case in the **"Positive Animal"** page.

4

STEP 4: QUICK RESPONSE

Automated Email and SMS system

- Registered health sectors
- Barangay/BHW
 - RHU
 - MHO/CHO
 - ABTC
 - CVO/MAO/MVO
 - PVO
 - PHO

Quick Response

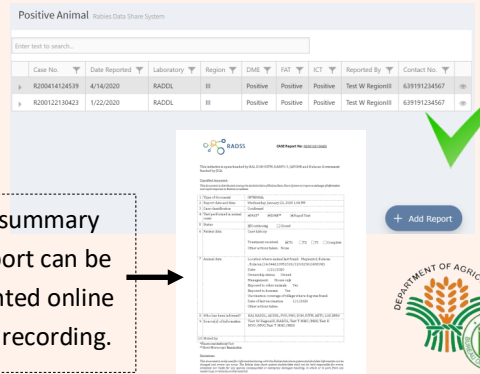

1. Case Investigation
2. Contact Tracing (Human and Animal)
3. Notification and Education Campaign
4. Restriction on free-roaming animal
5. Ring Vaccination

After receiving an automated message from the system, the health sectors will perform quick response. Then confirm it to RaDSS.

5

STEP 5: EVALUATION & ASSESSMENT

A summary report can be printed online for recording.

DA-BAI will evaluate and close the case if all responses are complete.
